

nutraceuticals™

MUSHROOM POWDERS ORGANIC WHOLE FOOD & VITAMIN D2

Full line of nutraceutical powders and dried mushrooms. Our fruiting body powders are available with and without mycelium and are cultivated on supplemented hardwood or organic sorghum. We grow, process, and pack in our own facilities to guarantee the integrity and quality of our products.

INDUSTRY LEADING QUALITY

- NO carriers or additives
- Excellent vegan source of plant-based protein and dietary fiber
- Grown, processed, and packed in Calif.
- Third-party tested for heavy metals, pesticides, mycotoxins, polysaccharides, and various active compounds

OUR NUTRACEUTICAL STORY

In our 50th year in business, Amir Karian, one of our family members, helped us expand our expertise as the leading producer and marketer of fresh mushrooms, spawn and mushroom genetics in the world, into a new product offering: nutraceutical mushrooms.

Amir came to work in our family business in 2017. He began his career in the biotech sector of the business, but his passion for mycology expanded after battling a personal chronic illness where he was introduced to medicinal mushrooms.
